Summary

Motivated Computer Science student with expertise in game development and testing, proficient in Python, Java, and C++. Experienced in designing engaging gaming experiences and conducting thorough testing to ensure quality and performance. Adept at problem-solving and delivering innovative solutions in dynamic environments.

EDUCATION

Bachelor of Engineering (BE) in Computer Science, Rajeev Institute of Technology — Expected 2025

My academic journey at Rajeev Institute of Technology in Computer Science has equipped me with a diverse skill set, with a current grade standing at 7.0 CGPA

Pre-University (PU) in PCMC, BGS PU College — 2019 - 2021

SKILLS

Technical Skills Python, Java, C/C++, Android, Django, Data structures & algorithms

Tools & Technologies UI/UX Designing (Figma), MySQL, SQLite

EXPERIENCE

Augmented Reality Developer — Oct 2023 - Nov 2023

ARK Infosolution — *Bengaluru, Karnataka*

- During this Internship period I undergone Technology Training on Augmented Reality
- Designed and implemented a AR Dragon with Unity AR engine.

Soft Skills & Microsoft Office — Oct 2022 - Oct 2022

10 Seconds — *Hassan, Karnataka*

- I acquired a comprehensive set of skills essential for professional development and effective workplace communication. Through hands-on experience, I honed various soft skills indispensable for career success.

PROJECTS

Inspyr AI: A project on Generative AI called 'Inspyr AI' for our VTU 7th semester curriculum. It generates images and websites from user prompts. We chose Django for building dynamic web applications, and OpenAI as our AI model.

Courier Management System: A mini project for VTU's 5th Semester: a Courier Management System. Built with Django, MySQL, HTML, CSS, and JavaScript, it tracks inventory, transactions.

AR - Dragon: Internship Project at ARK Infosolution Pvt. Ltd.: Collaborated on developing a ARVR for the client 'AR - Dragon'. Leveraged Unity AR engine to enhance user experience.
